Simply click on “Proceed” to begin your payment(s).

All of the students linked to your account will be displayed here (see *Figure 21*). You can make a credit to some or all of them at the same time. If your child’s school has set up any “Special

Payments” you will see them listed here (for instance, Enrollment, Dance Class Fees, Back-To-School Portraits, Locker Fee, etc). Leave blank any fee you don’t wish to pay as part of this transaction, or which doesn’t pertain to the listed student(s).

If the schools have provided extra information about a payment (comments or special instructions), the payment name will be marked with a “\*” to indicate a footnote. The corresponding information will be displayed at the bottom of the screen.

For all fees except “Meal Account”, a text box to enter “Notes/Comments” will be displayed. The comment you enter here will be sent to your child’s school, along with the payment. This is useful, for instance, if the school has requested additional information about your payment. (Note: no comment can be entered for “Meal Account” credits, simply because these amounts are imported directly and automatically into your school’s meal accounting program.)

To provide a credit, simply enter the desired amounts in the boxes beside each applicable payment name. Then, click “Next” to continue.

To cancel the transaction instead, click “Cancel” to return to the Transactions List page.

At this stage you will have the opportunity to review the details of the transaction, as seen in *Figure 22*. This page shows the amount and type of each credit, along with the convenience fee assessed by your school or school district. This page alerts you that you will be re-directed to one of our partner sites for the completion of your transaction.
